Workshop 3.4: MDA Digital Transformation Showcase (Part 1)

Phase 3: Digital Innovation

Workshop Code: WS 3.4
Primary Component: Interoperability Platform + Data Centre (MDA Engagement #1)
Duration: 1 day
Timing: Month 9, Week 4
Phase Theme: "Empowering the Digital Ecosystem"

Executive Summary

This is the first of two MDA showcase events designed to accelerate adoption of the interoperability platform, data centre infrastructure, and digital transformation tools across government. Early adopter agencies demonstrate their progress, lessons learned, and benefits realized. The event builds momentum, addresses concerns, provides peer learning, and motivates additional MDAs to join the digital ecosystem.

Key Outcome: Increased MDA commitment to platform adoption with concrete onboarding plans for 5-10 additional agencies.

Workshop Objectives

1. **Demonstrate Value:** Early adopters showcase working solutions and tangible benefits
2. **Peer Learning:** MDAs learn from each other's experiences
3. **Address Barriers:** Identify and solve common obstacles to adoption
4. **Accelerate Adoption:** New MDAs commit to onboarding timelines
5. **Build Community:** Create network of digital champions across government

Target Participants (60-80 people)

All MDAs (50-60)

- IT directors/CIOs from all ministries, departments, agencies
- Digital transformation leads
- Line managers interested in service improvement
- At least 2-3 representatives per MDA

Early Adopter Presenters (8-12)

- Agencies that have implemented pilots or early integrations
- Technical staff and business owners who can speak to results

Leadership & Support (10-12)

- MPAAI Minister or Permanent Secretary (opening)
- Project team
- CAF and EU Delegation
- National-CSIRT
- Technical support staff

Detailed Agenda (Single Day)

Morning Session (9:00 AM - 12:30 PM)

Opening (30 min)
- Ministerial welcome: "Whole-of-Government Digital Transformation"
- Project progress overview (e-ID, interoperability, data centre, regional pilots)
- Vision: Connected, efficient, citizen-centric government

Keynote: "The Interoperable Government" (30 min)
- EU expert presents successful government-wide digital transformation
- Estonian X-Road ecosystem with 99% of services digital
- Benefits: Speed, accuracy, cost savings, citizen satisfaction
- How to achieve: Leadership, standards, community, persistence

Early Adopter Demonstrations (90 min)
6 early adopter agencies (15 min each):

Possible Examples:
1. **Health:** Patient records accessible across facilities

- Use case, technical approach, challenges, results
2. **Education:** Student records transfer between institutions
3. **Revenue Authority:** Automated business registration data exchange
4. **Social Services:** Integrated eligibility verification
5. **Immigration:** Background check integration
6. **Land Registry:** Property verification API for mortgages

Each demo shows:
- Problem solved
- Solution implemented (live if possible)
- Integration with interoperability platform
- Benefits (time saved, errors reduced, user satisfaction)
- Lessons learned

Q&A (30 min)

12:30 - 1:30 PM: LUNCH & NETWORKING

Afternoon Session (1:30 PM - 4:30 PM)

Panel: "Lessons from the Trenches" (45 min)
Early adopters discuss:
- Biggest challenges (technical, organizational, change management)
- How they overcame them
- What they wish they'd known
- Advice for agencies just starting
- Importance of executive sponsorship

Workshop: "Planning Your Adoption" (90 min)
MDAs not yet onboarded work in groups:
- Identify services that could benefit from integration
- Map current process vs. digital-enabled process
- Estimate benefits (time, cost, satisfaction)
- Identify data needed from other agencies
- Identify data they can provide to others
- Draft integration roadmap (6-12 months)
- Identify resources and support needed

MDA groups present their plans (5 min each)

Interoperability Platform Deep Dive (30 min)
Technical overview for interested agencies:
- How to connect to the platform
- API standards and documentation
- Security and authentication

- Testing and sandbox environments
- Support available

Commitments & Next Steps (20 min)
- MDAs publicly commit to next steps (formal or informal)
- MPAAI commits to support and resources
- Timeline for MDA onboarding cohorts
- Preview of Part 2 showcase (Month 10)

Closing Remarks (5 min)

Key Discussion Questions

- What motivates agencies to adopt vs. resist?
- How do we overcome "not invented here" syndrome?
- What support do MDAs need from MPAAI?
- How do we handle agencies with limited IT capacity?
- How do we demonstrate ROI to skeptical leaders?
- What incentives can accelerate adoption?

Expected Outputs & Deliverables

1. **Demonstration videos/materials** from early adopters
2. **MDA adoption plans** (5-10 new agencies)
3. **Barrier identification and mitigation strategies**
4. **Community of Practice** launched (ongoing MDA network)
5. **Onboarding schedule** for next cohort of agencies
6. **Workshop Report** (Product 3)

Success Metrics

- 60+ participants from diverse MDAs
- 6+ early adopter demonstrations
- 5-10 MDAs commit to adoption plans
- 4.0/5+ participant satisfaction
- Community of Practice established with first meeting scheduled

---

Connection to Other Workshops

Builds On: WS 2.1 (interoperability platform), WS 2.3 (pilots), WS 3.1/3.2 (tech hub resources available)
Builds For: WS 4.1 (Part 2 showcase with more agencies), WS 4.2 (governance informed by adoption experiences)

Links to TOR Requirements

TOR Section 5, Objective C:
- **Action d (part 1):** "Support the conduct of workshops (approx. 2) to promote data centre use among MDAs."

TOR Section 6, Services:
- **Service 2:** "Support oversight and monitoring of all project components."

Document Status: Draft
Version: 1.0
Date: September 26, 2026
