Workshop 4.1: MDA Digital Transformation Showcase (Part 2)

Phase 4: Digital Sustainability

Workshop Code: WS 4.1
Primary Component: Interoperability Platform + Data Centre (MDA Engagement #2)
Duration: 1 day
Timing: Month 10, Week 3
Phase Theme: "Scaling, Securing, and Sustaining"

Executive Summary

Building on the momentum from Workshop 3.4, this second showcase demonstrates expanded adoption, mature implementations, and quantified results. Agencies that committed in Part 1 present their progress. The focus shifts from "why" and "how" to "results" and "what's next"—solidifying the interoperability platform and tech hub as core government infrastructure.

Key Outcome: Whole-of-government commitment to digital transformation with long-term sustainability plans and governance transition.

Workshop Objectives

1. **Demonstrate Maturity:** Show evolution from pilots to production services
2. **Quantify Impact:** Present measurable results (time, cost, satisfaction, outcomes)
3. **Expand Adoption:** Additional MDAs commit to onboarding
4. **Sustainability Planning:** Transition from project mode to operational governance
5. **Celebrate Success:** Recognize achievements and build esprit de corps

Target Participants (70-90 people)

All MDAs (60-70)

- Broader participation than Part 1

- Senior leadership (Permanent Secretaries encouraged to attend)
- IT directors and line managers
- Agencies from Part 1 return to see progress

New Presenters (12-15)

- Agencies that onboarded since Part 1
- Original early adopters showing matured implementations
- Regional pilot participants (if available)

Leadership & Guests (10-15)

- Minister of Public Administration and AI (opening/closing)
- CAF and EU senior representatives
- Media (if public component)
- Selected private sector partners (from WS 3.3)

Detailed Agenda (Single Day)

Morning Session (9:00 AM - 12:30 PM)

Opening & Progress Update (30 min)
- Ministerial remarks celebrating progress
- Project overview: "What We've Accomplished in 10 Months"
- E-ID status (users, services)
- Interoperability platform (agencies connected, APIs, transactions)
- Data centre/tech hub (utilization, projects, partnerships)
- Regional pilots (cross-border services launched)
- By the numbers: Quantified impact across all initiatives

Success Stories (90 min)
8-10 agencies (8-10 min each) showcase results:

Focus on Metrics:
- Time savings (permit processing time reduced X%, service delivery accelerated X days)
- Cost savings (eliminated redundant data entry, reduced manual processes)
- Error reduction (data accuracy improved, inconsistencies eliminated)
- User satisfaction (citizen feedback, employee feedback)
- New services enabled (services that weren't possible before integration)

Examples might include:
1. **Original early adopters:** Showing scaled implementations and long-term results
2. **Part 1 committed agencies:** Demonstrating they followed through

3. **New adopters:** Fresh perspectives and quick wins
4. **Cross-agency collaboration:** Services requiring multiple agencies working together
5. **Regional success:** Cross-border service in operation (if ready)

Interactive Q&A (30 min)
- Audience questions to presenters
- Peer-to-peer learning

12:30 - 1:30 PM: LUNCH & DEMOS
- Exhibition area with live demonstrations
- Hands-on exploration of services
- Networking

Afternoon Session (1:30 PM - 4:30 PM)

Panel: "From Project to Operations" (45 min)
MPAAI leadership, early adopters, technical team discuss:
- Transitioning from pilot to production to standard practice
- Sustaining momentum when project funding ends
- Governance transition (from project steering to operational oversight)
- Continuous improvement and evolution
- Long-term funding and resource allocation
- Knowledge retention and skills development

Workshop: "The Next Wave" (60 min)
MDAs not yet fully onboarded:
- Review their progress since Part 1 (if applicable)
- Identify additional integration opportunities
- Plan for next 6-12 months
- Form peer learning cohorts
- Commit to timelines

New use cases and innovation ideas:
- What new services could we create now that platform is mature?
- How can we leverage tech hub for service innovation?
- Regional expansion opportunities

Looking Forward: Integration into National Digital Strategy (30 min)
- How does this project fit into broader digital government agenda?
- What comes after the project ends (Month 12)?
- Roadmap for years 2-5
- Sustainability and governance model (preview WS 4.2)

Recognition & Celebration (15 min)
- Awards/recognition for exemplary adopters

- Team acknowledgments
- Community building

Closing Remarks (10 min)
- Ministerial closing: Vision for T&T as digital government leader
- Thanks to all participants
- Preview of final workshop (WS 4.2: Governance)

Key Discussion Questions

- How do we maintain momentum post-project?
- What governance structure sustains this long-term?
- How do we fund ongoing operations and improvements?
- How do we keep attracting talent and skills?
- How do we continue innovating and not stagnate?
- How do we expand regionally and internationally?

Expected Outputs & Deliverables

1. **Quantified results** from 8-10 agencies (metrics, case studies)
2. **Additional MDA commitments** (5-10 more agencies onboarding)
3. **Sustainability recommendations** (funding, governance, operations)
4. **Innovation pipeline** (new use cases identified)
5. **Community of Practice** expanded and energized
6. **Media coverage** and public awareness (if appropriate)
7. **Workshop Report** (Product 3)
8. **Inputs for Product 6** (Final Report): Success stories, metrics, lessons learned

---

Success Metrics

- 70+ participants including senior leadership
- 8-10 diverse agency presentations with quantified results
- 5+ additional MDAs commit to adoption
- Clear sustainability plan endorsed
- 4.3/5+ satisfaction
- Positive media coverage (if public component)

Connection to Other Workshops

Builds On: WS 3.4 (Part 1), all prior workshops showing results
Builds For: WS 4.2 (Governance): Sustainability and governance models formalized
Feeds Into: Product 6 (Final Report): Major source of results and impact data

---

Links to TOR Requirements

TOR Section 5, Objective C:
- **Action d (part 2):** "Support the conduct of workshops (approx. 2) to promote data centre use among MDAs."

TOR Section 6, Services:
- **Service 10:** "Support Monitoring and Evaluation (M&E) activities, including reporting achievements and success stories to CAF, the EU, and project governance bodies."

TOR Section 7, Products:
- **Product 3:** Workshop Reports
- **Product 6:** Final Project Report (this workshop provides key inputs)

Document Status: Draft
Version: 1.0
Date: September 26, 2026
